

ACUTE CORONARY SYNDROME (AMI/CHEST PAIN) ADMISSION ORDERS

Admitting Physician: _____ Date: _____ Time: _____

Admit to Inpatient: Med/Surg Telemetry ICU
Place in Observation: Med/Surg Telemetry Other _____
Diagnosis: Acute Coronary Syndrome Chest Pain Acute MI Other: _____
Condition: Stable Guarded Critical Good Fair Poor
Consult: Cardiology: _____
 Cardiology Surgery: _____
 Other: _____
Allergies: _____

Code Status: Full DNR

Vital Signs: Per unit protocol Every shift every _____ hours
 Other: _____

Activity: Bed rest Up in chair Bedside commode Ambulate ad lib Bathroom privileges

Nursing: Daily weight Intake & Output Foley to drainage Sequential Compression Device (SCD)
 Pulse oximeter every shift twice a day
 Glucose checks AC and qHS or every _____ hours
 Other: _____

Diet: Regular NPO 2 gm low sodium
 Clear liquid Full liquid Cardiac Carbohydrate Controlled
 No caffeine or temperature extremes
 Other: _____

Fluids: Intravenous: _____ @ _____ ml/hr
 Saline lock Other: _____

Oxygen: Nasal Cannula _____ L/min, adjust to keep O2 sat greater than 92%.
 Venti Mask _____ % FIO2 100% NRB
 Other: _____

Labs: Troponin (STAT, repeat 90 min, and 12 hours) CPK Myoglobin
 BMP CMP BNP Magnesium Stool guaiac Cardiac Enzymes (every 6 hrs x 3)
 Fasting lipid profile TSH UA CBC ABG
 D-dimer Fibrinogen High Sensitivity C-Reactive Protein
 Other labs: _____

Protocols (if available): All protocol orders must be placed in chart
 Nitroglycerin IV Protocol for MI
 Weight Based Heparin Dosing Protocol (when patient placed on protocol, all associated labs and monitoring is included)
 Weight Based Heparin Dosing Protocol for MI in patients receiving thrombolytics
 Insulin Infusion Protocol (ICU patients only)

Studies: (If LVEF less than 40%, Implement CHF Protocol) Cardiac Stress Test: (after negative enzymes x3)
 CXR: Portable PA/Lateral Exercise treadmill
 EKG STAT, repeat 8 hrs x 3 Stress echocardiogram
 Echocardiogram Dr. _____ to read Adenosine treadmill
 Nuclear Cardiac Scan (assess wall motion, EF) Persantin Thallium
 Other: _____ Dobutamine Stress Test
 Treadmill with Cardiolyte
